Elindness, Paralysis Rheumatism.

More than two years ago my eyes began to fail me. I immediately applied to eminent oculists for relief; for eighteen months they treated me without a particle of benefit. Finally, about three months ago, I went totally blind, and as a last resort, I procured an Electropoise, which, very much to the gratification of myself and my family, has restored my sight. It has also greatly benefited my wife and daughter. My wife has been a subject of paralysis for more than two years, and my daughter a sufferer from inflammatory rheumatism for more than twelve years. All this has been effected in the last two months. Too much cannot be said in praise of the Electropoise. If I were the possessor of the only one in existence, and it could not be reproduced, the wealth of the universe could not purchase it. I consider it the grandest invention of the age. Truly and gratefully yours.

C. W. Greenfield, M. D.

Guthrie, Ky., September 9, 1891.

The above from Dr. Greenfield is supplemented by another letter which appears in another part of this paper, and which shows that the Electropoise stands the test of time. For description and other particulars address DuBois & Webb, 54, 56, 58, 60, and 61 Cole Building, Nashville, Tenn. ja 12 fr. mo. week.

ARKANSAS.

The Latest from Hope.

For several months my wife suffered a great deal with rheumatism. Finally I sent for an Electropoise, and when she began using it she could not walk a step without crutches. She took two courses of treatment and now she is entirely well. Eight months have now passed since she used her crutches. We think it is worth its weight in gold any time.
